Budweiser’s Clydesdale Horses in Cave City
At the Cave City Convention Center. A parade will take place downtown.
The Clydesdale is a breed of draught horse derived from the farm horses of Clydesdale, Scotland, and named after that region. Although originally one of the smaller breeds of draught horses, it is now a tall breed. Often bay in color, they show significant white markings due to the presence of Sabino genetics. The breed, originally used for agriculture and haulage, is still used for draught purposes today. The Budweiser Clydesdales are some of the most famous Clydesdales, and other members of the breed are used as drum horses by the British Household Cavalry. They have also been used to create and improve other draught breeds. Have your photograph made with these beautiful horses. For information, call 270-773-3131.
